Dear Parents:

We are trying to communicate more electronically. We publish newsletters quarterly and want to send them to everyone via color PDF, and not have to print 100 of them. We are also sending as much correspondence as possible through e-mail.

As of right now, we do not have your e-mail address.

You can give me both e-mail addresses and I will send all correspondence to both of you or just give me the one you would like everything to go to.

This will make things a lot easier and a little cheaper.

Thanks for your timely response!

Sue
